

Voices of the Journey is a collection of the stories of 47 first-generation immigrants from 27 foreign countries who came to live in six cities near the bend of the Minnesota River. These cities are Mankato, North Mankato, Lake Crystal, Nicollet, St. Peter, and New Ulm.

The book seeks to preserve the history of immigrants in the area in order to better understand how they live in their new country, the challenges they have faced, the help they received, and how they contribute to their community.
